### WEATHER CONDITIONS.

Pressure has fallen decidedly over the middle and southern plateau regions during the past twenty-four hours, the center of the storm being over Arizona. An area of high pressure is moving in over the Pacific northwest, while the crest of a second "high" lies over Man-itoba. Precipitation has fallen along the coast as far south as San Francisco over Idaho, Wyoming and the middle Rocky Mountain slope. It is warmen over southern Utah, but elsewhere tem perature changes have been slight. L. H. MURDOCH, Section Director.

## DESERET EVENING NEWS BLEW OPEN AN UNLOCKED SAFE.

Burglars Use Dynamite in the Springville Tithing Office and Get Nothing-Visit the Post Office Also With a Like Result.

(Special to the "News.")

Springville, March 28 .- There were two daring burglaries in this city last night, or early this morning, which, while they must have cost the prowlers considerable work, at the same time netted them nothing for their pains. As a consequence there are some disgusted burglars somewhere up or down the line who are mourning the loss of a couple of sticks of dynamite and considerable tissue on account of their operations. The men who turned the trick are evidently old hands at the safe-blowing business, judging from their handiwork, which is in evidence in the office of the tithing yard here this morning. Some time during the night or early morning the men gained an entrance to the building, and after considerable work blew open the safe. This

operation, which must have consumed considerable time, was absolutely unnecessary on their part for prior to shutting up the office for the night Bishop Sullivan had removed everything of value from the safe and left

Not to be beaten, and apparently anxious to carry away a substantial souvenir of Springville, the thieves went across the street and turned their attention to the post office. The feldow and then proceeded to ransack the premises. Drawers were forced and the placed turned upside down, but Post-master Dougall had taken the precaution last evening to take all the cash stamps and registered letters home with him. The men accordingly, in the language of the police, "made a water

### CHANGE IN THE LIBRARY. Plan to Enhance the Gift of John Q. Packard.

The authorities of the city are working on a scheme whereby the gift of John Q. Packard of a public library to the city, can be greatly enhanced. The donation of Mr. Packard was a part in cash and the rest in a lot on State street. The idea now is for the city to co-operate with Mr. Packard and furnish the site for the library building, using the entire gift of Mr. Packard in the form of cash. If this plan prevails the city will obtain a library building that will cost at least \$100,000 and upon

a much more desirable site than the one

now selected contribution of Mr. Packard included \$75,000 for a building and a lot worth \$20,000, located immediately south of the Alta club building with 100 feet frontage on State street. Judge Harkness represents Mr. Packard and the proposition made to him before he left for the East was that the city furnish a site for the library building on the corner of State and First South, the old city hall corner, and that Mr. Pack-ard make his entire donation in cash. City Attorney Frank B. Stephens and Judge Harkness held a conference some time ago and decided to bring the mat-ter before Mr. Packard, but he being absent in California the negotiations

will have to be delayed, is generally conceded that the old sity hall corner would make a much better site for the library than the place elected by Mr. Packard. there is worth \$400 a foot, so that a qual in size to that purchased by Mr. fore if the exchange is made and the brary will have property worth \$140,000, aside from the books.

Mr. Packard will lose nothing by the Mr. Packard will lose nothing by the deal, and it is thought that he will readily accede to the wishes of the city authorities, and if the exchange can be made the people will ratify it.

### SMALLPOX DEATH. John Burton a Victim of the Disease-Buried Today.

John H. Burton, a well known and highly respected citizen of the Fifth ward, died at 6 o'clock last evening from an attack of confluent smallpox aggravated by chronic asthma and other bronchial troubles. Mr. Burton had been sick with the disease for

twelve days.

closed door unlocked.

### He was assistant superintendent of the Fifth ward Sunday school, counselor to the president of the Fourteenth quorum of Elders, and an active and useful member in the ward. He had also served as a missionary to New Zealand, to which part of the world he left on March 4th, 1889. He returned home May 14th, 1892. During that per-iod he suffered greatly at times from arthma, particularly while laboring in the Wairarapa district. Speaking of this section, Elder B. Goddard today said: "It is, or part of it, very low and affected Elder Burton seriously. As a

consequence he was transferred to a higher part of the country, where he felt much better; but his lungs continued to bother him more or less."
Since his return home he has followed the various avocations of an indus-trious laboring man, and for two years was deputy water master under ex-Su-perintendent of Waterworks Seddon, whose half-brother he was. He was born and raised in this city where he was well known and well liked. I was also a member of the Veteran Fire-men's association for many years and

held a membership in the organization at the time of his death. The scene about the residence today was one of desolation. The place was, of course, under quarantine, and not even friends or relatives were per-mitted to be present to express their sorrow or offer words of consolation to the bereaved. The body was subjected to a fumigation process at noon today by Dr. Scott, after which it was conveyed to the cemetery and interred.
The members of the Australasian

Missionary society, it is understood will meet and pass resolutions of respect to his memory and deeds.

The grip is an old disease with a new name; it is really catarrhal in character and the usual symptoms are those of acute catarrh, but the old time catarrh powders, salves and sprays do not cure it, neither does the application of antiseptics through an inhaler give anything more than relief for a

The antiseptics are all right; they will kill the germs of catarrh and grip if they are applied rightly, but their local application to the nose and throat avail little because the germs are in the blood and through the whole system.

Stuart's Catarrh Tablets contain many of these same antiseptics, that are used in sprays and inhalers, but instead of applying them to the inflamed membranes of the nose and throat, they are taken into the stomach and thus reach the blood, the real seat of the disease and drive out the infestious germs through the natu channels of the bowels and kidneys. natural In other words Stuart's Catarrh Tab-lets reach the cause of the mischief in-

stead of merely local symptoms.

The remarkable success of these tablets in curing grip, catarrh and throat and lung troubles is because they drive the catarrhal poison from the system and the nose and throat become clear of the excessive secretion of mucus, which causes the hawking, spitting and gagging, because the secretion is not supplied from healthy blood.

Mr. Phil Margetts, the veteran actor, has just returned from Preston, Idaho. He left Salt Lake last week, having been engaged by the Preston Dramatic company to coach and appear with them at the opening of their new opera liouse, which took place last Saturday night, March 23rd. They produced the two-act domestic drama, "Old Phil's Birthday," with an olio, to a large and delighted audience, who declared it to be the best performance ever given in that city. On the invitation of Presi-dent Parkinson, Mr. Margetts and the company played the same bill at Franklin on Monday night. There was a big turnout on the occasion, and everyone present was pleased with the performance. Mr. Margetts speaks in high items of the members of the Preston company.

### BUSINESS AND BUILDING.

J. B. Cosgriff, of the firm of Cosgriff, Enright & Co., is to put up a beautiful home this spring on South Temple. Between Fifth and Sixth East. The cost is estimated from \$15,000 to \$20,000, and the structure will be of red shale brick with white stone trimmings, will contain seventeen rooms, with a bowling alley in the basement. will also be a conservatory 12x16 feet with glass partitions opening into the dining and sitting rooms. A handsome billiard room will occupy a portion of the second floor. Needless to say the furnishings and appointments will be of the choicest kind.

At a meeting of the trustees of the Agricultural college held at Logan the other day, W. S. McCornick and D. C. Adams were appointed a committee to employ an architect and to arrange for the supervision of erecting the central portion of the College, and thereby finish the main building. About \$55,000 of the appropriation is available for building purposes. The finishing of the main building will cost \$40,000, and \$10,000 will be used in erecting some barns, the rest of the money will go towards repairing the buildings. Henry Mahler of this city will get out the plans for the main building. It will of course conmain building. It will of course con-form to the other portions of the struc-ture. It will be 65 feet square, four stories high capped with a striking tower. No time will be lost in erecting the building.

William Mansfield is going to erect a handsome home on Second East street, between Fourth and Fifth South. The house will cost \$25,000. Architect Ware has the plans in hand. Mr. Ware is also drawing up plans for a \$2,000 cottage for A. A. Ball, on First South, near Sec-one East street.
